PROFILE

Aspiring robotics engineer with a strong interest in mathematics, physics, automation, and emerging technologies. Currently completing secondary education with 15.22/20 French/Tunisian system and preparing for the Baccalaureate (2027–2028). Known for creativity, practical skills, and a passion for learning and building innovative solutions. Fluent in Arabic, French, English, and Italian, with the ability to adapt to multicultural academic environments. Seeking to develop advanced engineering and robotics expertise through university studies and research opportunities

EDUCATION & TRAINING

Secondary Education – Mathematics stream (Baccalaureate track) · High School Habib Thamer, Tunisia **Sep 2024 – Present**

Currently completing secondary education with focus on mathematics, physics, and core sciences in preparation for the Baccalaureate exam (expected 2027–2028). Strong interest in robotics, engineering, and applied sciences. Multilingual student (Arabic, French, English, Italian).

GPA / Average: 15.22 / 20

Honours: Consistent academic excellence, receiving a Certificate of Excellence every academic year since primary education (from age 6), across all schools attended.

Class Rank: top 4

WORK EXPERIENCE

Automotive Repair Intern · Local Car Repair Workshop **Jun 2025 – Aug 2025**

Assisted in vehicle maintenance and basic mechanical repairs. Gained hands-on experience with car systems, tools, diagnostics, and workshop safety procedures. Developed practical problem-solving skills and technical awareness.

Electrical Assistant (Residential) · Independent Residential Electrician **Jun 2026 – Aug 2026**

Supported a residential electrician in electrical installations and maintenance work. Assisted with wiring, fixture installation, and basic troubleshooting while following safety standards. Developed practical technical skills and attention to detail.

RESEARCH & PUBLICATIONS

Independent Cybersecurity Projects (Python) · GitHub (Personal Projects Repository) **2023-Present**

Developed multiple Python-based cybersecurity projects exploring foundational concepts such as basic encryption, password security, and system protection principles. Projects are documented and publicly available on GitHub, demonstrating independent learning, problem-solving skills, and practical programming ability.

GitHub, : <https://github.com/F7P-H4NN1B4L>

Creating and publishing technical content focused on hardware tinkering, basic cybersecurity experiments, and device repair (PC and mobile). The channel demonstrates practical engineering skills, experimentation, and the ability to explain technical concepts through real-world demonstrations.

HONOURS & AWARDS

Academic Excellence Award (Annual Certificate of Excellence) · School Since primary education (2012) - 2026 / Educational Institution (various schools attended)

Received an annual Certificate of Excellence for consistently outstanding academic performance across all academic years since primary school. Demonstrates long-term academic discipline, consistency, and strong performance in all subjects.

LANGUAGE SKILLS

English
C1 – Advanced

French
